FEBRUARY | 2023 | REPORT

SUMMARY

From humble beginnings in 2022, the collaboration between BonRo Studios and SSC Diamond Mining has grown. Our venture, to give the deaf and blind community the skill to work independently in the film and entertainment industry, has led to an already promising 2023.

So far, we have completed our first podcast recording for The Race, we start creating sound effects next!

Filming has begun on our short film, Detention. This is the first film completed directed and shot by our Film Club with little to no aid.

2023 is already proving to be an impactful year as we aim to instill the confidence our students need to lead their own way into the industry.

Re A Tshela!

SUMMARY

Summary of the project's progress so far.

TASKS

List of our current tasks.

FUTURE OVERVIEW

A list of future goals we'd like to achieve next.

BEHIND THE SCENES

Take a glimpse behind on the scenes on the sets of our new projects!

TASKS

Our students have assigned roles in production and are working as a team.

Collectively enhancing their skills.

Growing more and more confident in their own skills, both in acting and camera.

Have managed to completely direct and film by themselves.

The best education in film is to be in one.

- Stanley Kubrick

FUTURE OVERVIEW

- ❖ To get our podcast students involved in sound effects
- ❖ To get our Film Club Students involved in editing.
- ❖ To send a short film in for competitions.
- ❖ To further develop our multi-qualified team to fully produce projects on their own.

- ❖ To give our students the confidence to write their own stories.
- ❖ To continue to grow The Film Club with more exciting projects.
